University High School (“Uni”) is a comprehensive high school (grades 9-12) located in West Los Angeles, CA.

Uni was built in 1924 and occupies a 24-acre site that is designated as a California State Historical Site due to the discovery of the remains of a Native American village and a freshwater spring on the campus that has been used by Native Americans in the area for thousands of years.

The attendance area that Uni serves encompasses the neighborhoods of West Los Angeles, Brentwood, Bel-Air, and Westwood.

University High School’s student body reflects the diversity of Los Angeles, with students born in 47 different countries.
Small Learning Communities
University High School currently houses 4 small learning communities:
- School of Business and Finance
- School of Communication
- School of Engineering
- School of Health and Environmental Sciences

In 2010, University High School became the home of a Digital Media Magnet School
This school will service more than 400 students in grades 9-12 by the 2013-2014 School Year.

School of Business & Finance
The vision of the School of Business and Finance is to develop student leadership related to careers of business and service, modeled by high ethical standards, united through community partnerships, and supported with rigorous curriculum that is relevant to the needs of the 21st century.

The School of Business and Finance unites a community of students, parents and administrators in partnerships with postsecondary institutions and related businesses and social services, providing paid internships and post-secondary degree opportunities in the business/finance and civic arena.

School of Communication Arts
The vision of the School of Communication Arts is to provide a high quality educational experience through innovative teaching and active learning where coursework addresses the needs of the professional workplace, as well as higher-level education.

The School of Communication Arts is partnered with many local organizations, schools, and businesses, including the United Talent Agency, Los Angeles Educational Partnership, CSUN, and UCLA.

School of Engineering
The purpose of the SoE is to prepare students to enter a 4-year technical major after high school.

The SoE features a rigorous A-G approved engineering curriculum (provided by Project Lead The Way). Students focus on hands-on engineering projects that help build their technical skills, provides experience working in teams, and enhances their presentation and public speaking skills.

Partnerships with industry-leading companies such as Northrop Grumman and SGH Engineering enhance the curriculum by providing students with a connection to the working world.

School of Health and Environmental Sciences
The School of Health and Environmental Sciences aims to provide students a rigorous curriculum in which to explore diverse career opportunities in health, environmental, and medical science careers.

The School of Health and Environmental Sciences provides a learning environment that engages students in a standard-based curriculum, with an emphasis placed on preventative health through sustainable living.

Ready for College
Over 80% of Uni students go on to continue their education beyond High School, including the following institutions:
- UC Schools
- Cal State Schools
- USC
- LMU
- Harvard
- Brown
- Cornell
- Princeton
- Northwestern
